

Power Flux 10000mAh Power Bank, 1 USB-C Port and 1 USB-A Port

SKU: UQBB10000LCDPD20

The perfect compact power bank for everyday use, providing safe and efficient charging with Power Delivery and Programmable Power Supply.

Power Flux 10,000 mAh is a **compact power bank with an LCD display**, designed to charge smartphones, tablets, TWS earbuds and MacBook Neo using a single charging port. The USB-C and USB-A ports allow you to power up to two devices at the same time, while the LCD display lets you check the remaining battery percentage at any time.

Charging and power

How many devices can it charge?

This power bank can charge up to **2 devices simultaneously** thanks to its two charging ports: one **20W USB-C port** and one **22.5W USB-A port**.

What happens when I connect two devices?

When two devices are connected at the same time, the power bank delivers a total of 20W, distributing the power between the two ports according to the connected devices.

How can I recharge the power bank?

Use the USB-C port and the cable included in the package to recharge the power bank easily.

Display and controls

What is the LCD display for?

The **LCD display** shows the remaining battery percentage in real time. This makes it easy to check the power bank's charge level before leaving home or while using it.

Does the display stay on all the time?

The product features a **control button**. Press it once to keep the display continuously on, or press it twice to turn the display on or off.

Charging technologies and safety

Which charging technologies does it support?

Power Flux supports **Power Delivery**, **PPS** and **AFC**. These technologies help manage charging more precisely by adjusting power and voltage according to the connected device.

Does it have built-in safety systems?

Yes, the power bank features an **Integrated Protection System** with protection against overvoltage, overheating and short circuits. This helps provide safer charging during everyday use.

Everyday use and convenience

Is it suitable for travel?

Yes. Thanks to its compact size, **10,000 mAh** capacity and display showing the remaining battery percentage, Power Flux is suitable for travel, business trips, days away from home and everyday use.
