

10000mAh Power Bank with Smart TFT Display, 65W USB-C Power Delivery and 22.5W USB-A AFC

SKU: UQBB10000TFTPD65

Keep everything under control with the integrated smart display

The **Control Flux 10000mAh power bank** lets you keep track of its key functions while charging thanks to the integrated smart display. Charge your devices, even simultaneously, using the two USB-C ports with up to 65W output and the USB-A port with up to 22.5W.

POWER AND SIMULTANEOUS CHARGING

How much power does the Control Flux power bank deliver?

The **Control Flux 10000mAh power bank** delivers up to **65W via USB-C Power Delivery** when a single port is used. This makes it suitable not only for smartphones and tablets, but also for compatible USB-C laptops when you need power away from a wall socket.

Which devices can it charge?

It is designed for compatible **iPhones, smartphones, tablets and laptops**, as well as smaller, lower-power devices such as **TWS earbuds**.

Can I charge multiple devices at the same time?

Yes. The power bank has **two USB-C ports and one USB-A port**, allowing you to power up to three devices at the same time. When two or three outputs are used simultaneously, the available power is automatically shared up to a total of 15W.

How do I recharge the power bank?

Both USB-C ports can also be used as inputs and support up to **45W Power Delivery**. You can recharge the power bank using the cable included in the box and a compatible USB-C charger.

DISPLAY AND REAL-TIME MONITORING

What does the power bank display show?

The **smart TFT display** provides an immediate overview of the power bank's operating status. It shows output power, remaining battery percentage, estimated remaining time and temperature status.

What is the advantage over a simple LED indicator?

The display does more than show the remaining battery level: it provides **more detailed charging information**. This lets you monitor the power bank and active connections more precisely while in use.

How do I turn the display on and off?

The power bank features a **touch control button**. Press it to switch the screen on or off, keeping information available when needed and the display off when it is not required.

TECHNOLOGIES AND SAFETY

What does 65W Power Delivery mean?

Power Delivery technology allows the power bank to adapt its output to the compatible device connected. Each USB-C port can deliver up to 65W when used individually, making it a versatile charging solution for devices with different power requirements.

What is PPS used for?

PPS, or Programmable Power Supply, enables more precise adjustment of voltage and current during charging. On compatible devices, output can be continuously adapted to match their charging requirements.

How does the USB-A port work?

The **USB-A port with Adaptive Fast Charge** delivers up to 22.5W with compatible devices. AFC technology automatically adjusts output to provide fast, controlled charging via USB-A.

What protection systems are built in?

The safety system provides protection against **overvoltage, overheating and short circuits**. These functions monitor the power bank while charging connected devices and while recharging its internal battery.

WHAT'S IN THE BOX

- 1 65W power bank
- 1 USB-C cable

10000mAh Power Bank with Smart TFT Display, 65W USB-C Power Delivery and 22.5W USB-A AFC
SKU: UQBB10000TFTPD65

Technical data

SKU: UQBB10000TFTPD65

Weight: 0.0200 g

Battery capacity: 10000 mAh

Recharging cable: USB - Type C

Maximum output power: 65 W

EAN: 8018417547676

GPSR: The product must not be used by children or by people unable to understand the potential risks., Item subject to WEEE Directive 2012/19/EU, Item subject to Battery Regulation 2023/1542/EU, Item subject to CE marking, Packaging of the item subject to the "Green Dot" recycling system, The item packaging is recyclable, Item subject to UKCA marking

Color: black

Input: 5 VDC 3A/9 VDC 3A/12 VDC 3A/20 VDC 2.25A (PD 45W)

Output: 5V D.C. 3A / 9V D.C. 3A /12V D.C. 3A/15V D.C. 3A /20V D.C. 3,25A (PD 65W), 5V D.C. 3A / 9V D.C. 2A / 10V D.C. 2,25A / 12V D.C. 1,5A (AFC 22,5W)

Battery: Lithium polymer battery

Connector: 2xUSB-C, 1xUSB-A

Technology: Adaptive Fast Charge, Power Delivery (PD),

Programmable Power Supply

Charging type: Power Delivery

Included accessories: 1 USB-C power cable
