

20W GaN USB-C charger kit with 1.5 m braided cable

SKU: UQTRKITGAN1C20W

A practical all-in-one solution for fast charging smartphones, tablets and compatible USB-C devices while keeping the charger compact and energy-efficient.

The Mini Cube 20 kit combines a 20W USB-C charger with GaN technology and a 1.5 metre braided USB-C to USB-C cable. A practical all-in-one solution for charging smartphones, tablets and compatible USB-C devices faster than traditional 5W power adapters, while maintaining a compact design and good energy efficiency.

Power and everyday charging

Which devices can I charge with 20W?

Power Delivery 3.0 technology delivers up to 20W, making it suitable for charging smartphones, tablets and other compatible USB-C devices. Actual charging performance depends on the power supported by the connected device.

Is it faster than a traditional charger?

Yes. With compatible devices, up to 20W of power can reduce charging times compared with standard 5W power adapters.

Does the charger manage power automatically?

Yes. The Power Delivery 3.0 protocol communicates with the connected device and adjusts the power supplied according to its requirements, making charging more efficient and controlled.

GaN technology and included cable

What are the advantages of GaN technology?

Gallium nitride offers greater efficiency than traditional silicon semiconductors and helps reduce heat loss. This makes it possible to create a compact charger without sacrificing performance.

Does the kit include a cable?

Yes. The box includes a 1.5 metre Premium USB-C to USB-C cable, ready to connect the charger directly to compatible devices.

Is the cable suitable for frequent use?

Yes. The braided outer layer is designed to provide greater resistance to wear than traditional cables with a smooth PVC finish, making it practical for everyday use.

How is charging safety managed?

Power Delivery 3.0 adjusts power according to the connected device, providing more precise energy management than chargers without intelligent charging protocols.

Compatibility and travel convenience**Which devices is it compatible with?**

The kit can be used with iPhone, Android smartphones, tablets and other USB-C devices compatible with Power Delivery technology.

Does it take up little space?

Yes. Measuring 55 × 35 × 35 mm, the charger is easy to store in a bag, backpack or suitcase and is also suitable for frequent travellers.

Do I need to buy any other accessories?

No. The kit includes both the charger and the USB-C to USB-C cable, so it is ready to use without purchasing any additional accessories.

What's in the box

- 1 Mini Cube 20 wall charger
- 1 1.5 m braided USB-C to USB-C cable

20W GaN USB-C charger kit with 1.5 m braided cable
SKU: UQTRKITGAN1C20W

Technical data

SKU: UQTRKITGAN1C20W

Weight: 0 g

Output power: 20W

Maximum output power: 20 W

EAN: 8018417544859

GPSR: The product must not be used by children or by people unable to understand the potential risks., Item subject to WEEE Directive 2012/19/EU, Item subject to CE marking, The device is protected by double insulation, an earthed connection is not permitted, Packaging of the item subject to the "Green Dot" recycling system, Use the product indoors and in a sheltered environment, The item packaging is recyclable, Item subject to UKCA marking

Color: white

Input: 100-230V A.C. 50/60Hz 0,5A

Output: 5V D.C. 3A/9V D.C. 2,22A/ 12V D.C. 1,67A (PD 20 W)

Connector: 1xUSB-C

Plug type: EU

Technology: GaN, Power Delivery (PD), Programmable Power Supply

Charging type: Power Delivery

Input voltage: 100 - 240 Vac / 50-60 Hz

Included accessories: 1 USB-C power cable
