

3-in-1 Foldable Qi2 25W Wireless Charging Station with Charger Included

SKU: UQWIR3IN1MFIQI225

The 35W 3-in-1 wireless charging station allows you to charge a smartphone, Apple Watch, and compatible earbuds simultaneously.

The 35W 3-in-1 wireless charging station allows you to power a smartphone, Apple Watch, and compatible earbuds at the same time. Thanks to Qi2 magnetic charging up to 25W, its foldable design, and the included wall charger, it provides a complete and tidy charging solution for home, office, and travel.

Charging and power

Can I charge three devices at the same time?

Yes. The station features a magnetic smartphone holder with charging up to 25W, an Apple Watch dock with charging up to 5W, and a wireless charging surface for earbuds with charging up to 5W. The total wireless output reaches up to 35W, reducing clutter compared with using three separate chargers.

Does it provide fast smartphone charging?

Yes. The magnetic holder uses Qi2 technology with charging up to 25W. On compatible devices, it provides faster charging than standard 5W wireless charging pads.

Is it compatible with MagSafe charging?

Yes. The magnetic system is compatible with smartphones and cases that support MagSafe technology and compatible magnetic charging standards. Precise alignment helps reduce energy loss compared with a wireless charging pad without magnetic attachment.

Can I also charge an Apple Watch and wireless earbuds?

Yes. The dedicated dock charges an Apple Watch at up to 5W, while the integrated surface on the base is designed for compatible wireless-charging earbud cases with charging up to 5W.

Safety and power supply

Is charging safe for my devices?

Yes. The station regulates power according to the connected compatible device. Qi2 certification also ensures more precise magnetic alignment than traditional wireless systems, improving efficiency and helping to reduce heat loss.

Is the wall charger included?

Yes. The package includes a USB-C wall charger with Power Delivery 3.0, PPS, and AVS technology, capable of delivering up to 45W. Compared with a 5W or 10W power adapter, it allows you to make better use of the charging station's performance.

Is the cable also included?

Yes. A 1-metre USB-C cable is included, so the station is ready to use without the need to purchase additional accessories.

Everyday use and portability**Can I use my smartphone while it is charging?**

Yes. The holder keeps the smartphone raised and clearly visible, allowing you to check notifications, join video calls, or watch content while charging.

Is the charging station foldable?

Yes. The central holder can be folded down to reduce its size when not in use. The foldable design makes it easier to transport than 3-in-1 charging stations with a fixed structure.

Is it also suitable for a desk or bedside table?

Yes. The 3-in-1 design keeps your smartphone, smartwatch, and earbuds organised in a single charging area. The LED indicator allows you to quickly check the charging status.

Key features

- 3-in-1 wireless charging station
- Total wireless output up to 35W
- Magnetic smartphone charging up to 25W
- Qi2-certified technology
- Compatible with MagSafe charging
- Apple Watch dock with charging up to 5W
- Wireless earbud charging base up to 5W
- Simultaneous charging of three devices
- Faster charging than standard 5W wireless charging pads on compatible devices
- Smartphone holder suitable for stand mode
- Foldable design that is easier to transport than fixed charging stations
- LED status indicator
- USB-C input up to 45W
- Power Delivery 3.0 wall charger included
- 1-metre USB-C cable included

Package contents

- 1 foldable 3-in-1 wireless charging station
- 1 USB-C wall charger
- 1 1-metre USB-C cable

3-in-1 Foldable Qi2 25W Wireless Charging Station with Charger Included
SKU: UQWIR3IN1MFIQI225

Technical data

SKU: UQWIR3IN1MFIQI225

Weight: 0.0200 g

Input current: 9V D.C. 3A / 15V D.C 3A

Maximum output power: 35 W

EAN: 8018417547751

GPSR: The product must not be used by children or by people unable to understand the potential risks., Item subject to WEEE Directive 2012/19/EU, Item subject to CE marking, Packaging of the item subject to the "Green Dot" recycling system, The item packaging is recyclable, Item subject to UKCA marking

Technology: Compatible with MagSafe, Power Delivery (PD), Qi2.2

Charging type: Wireless Charge

Power connector: USB-C

Wireless Output: 35W

Included accessories: 1 USB-C power cable, Charging cradle, Wall Charger
